**2019 The Year of Green Action**

# Join the Chamber Green Rose Movement

**Free Workshop Series**

**Limited number of places on cohort  
(2 places per company max)**

## Why join Chamber Green Rose?

- Save money on consultancy fees
- Access new customers requiring environmental credentials
- Prepare your business for certification to ISO 14001, BS 8555 or EMAS
- Peer to peer learning and support network
- Even if you are not going for ISO 14001 at this stage completion of the course and implementation of the guidance and advice will earn your business a Green Rose Certificate of recognition and you can contribute to the UK Year of Green Action\*

## What is Chamber Green Rose?

Chamber Low Carbon can help guide your business to implement a recognised environmental management system meeting the requirements of ISO 14001 or BS 8555 or EMAS with our Green Rose Programme.

This six-month programme, delivered by the Chamber Low Carbon Team, will provide support and guidance in the development and implementation of each organisation's Environmental Management System.

## Delivery of six half day workshop sessions as follows:

### Session 1

- Environmental awareness and introduction to climate change
- The benefits of improved environmental management
- Introduction to environmental management standards
- Gaining commitment and demonstrating leadership

### Session 2

- Establishing the context within which the business operates
- Identifying, understanding and documenting interested parties requirements
- Identifying and understanding environmental impacts
- Environmental legislation and the regulators

### Session 3

- United Nations Sustainable Development Goals
- How to assess an organisational carbon footprint and develop a carbon management plan
- How to compile a register of compliance obligations

### Session 4

- Setting Objectives
- Introducing environmental management programmes
- Roles, responsibilities and awareness

### Session 5

- Implementation and communication
- Operational Control
- Emergency preparedness

### Session 6

- Internal Auditing
- Non-conformance and corrective action
- Management review
- What is involved in the accreditation process

### On-site support (2.5 days)

**Day 1** - Conducting baseline review

**Day 2** - Documenting baseline review

**Half day** - Pre-inspection audit

Support and guidance provided throughout the 26-week period

**Interested?** Call a member of the team to find out more and book your place.
